**CLARIFY:**

REQ-23: "Ability to customize metrics by districts and school levels" – Can you please clarify this requirement?

Answer - We would like to be able to add on additional metrics and be able to see certain metrics at both the district and school level.

Please provide examples of what you consider a static report vs dynamic.

Answer - Static report would be something that could be printed and considered a snapshot in time. Dynamic report would be a report that would be live data and the ability to filter based on what end users want to see.

Is there an extract tool, or do you have staff that are capable of extracting data from the ODS?

Answer - We do have staff that are capable of extracting data from the ODS, but it's a limited resource.

Additionally, would you consider issuing a 1-week extension on the proposal due date to give us time to digest Q&A and adjust our proposal accordingly?

Answer - No, given that we would like to have this product go live by August 7<sup>th</sup>, we need to move quickly in selecting a vendor.

Sincerely
